Aborigines, reducing, cardiovascular disease and renal failure in Australian,: stemming the tide, (Supplement), 480

Abscess, lymphogranuloma venereum presenting with a psoas, 563

ACE activity, influence of angiotensin converting enzyme (ACE) genotype on interpretation of diagnostic tests for serum, 315

ACE inhibitor therapy, delayed diagnosis of recurrent visceral angio-oedema secondary to, 377

Activity patterns of 79-91 year old females, walking with its training effects on the fitness and, 22

Acute adrenal failure, renal biopsy precipitating catastrophic antiphospholipid syndrome, complicated by protein S deficiency and, 105

Acute coronary syndromes, role in management of,: troponin and other cardiac markers: (Supplement), 436

Acute general medical unit, prevalence and management in an,: atrial fibrillation, 51

Acute ischaemic stroke, opinion of New Zealand physicians on management of,: results of a national survey, 324

Acute lymphoblastic leukaemia, correlation of cytogenetics, BCR-ABL PCR studies and fluorescence *in situ* hybridisation (FISH) in adult, 707

Acute myeloid leukaemia, a well tolerated salvage regimen in,: fludarabine and high dose cytarabine (FLA), 556

Acute myeloid leukaemia in Hong Kong, treatment of de novo,: a twenty-year experience (1975 to 1996), 726

Acute myocardial infarction on the NSW Central Coast 1986 to 1994-96, review of Emergency Department thrombolytic therapy and changes in inpatient mortality of, 505

Acute promyelocytic leukaemia, arsenic trioxide treatment of relapsed,: initial Australian experience, 385

Acute respiratory exacerbations of cystic fibrosis, are antipseudomonal antibiotics really beneficial in?, 15

Adrenal failure, renal biopsy precipitating catastrophic antiphospholipid syndrome, complicated by protein S deficiency and acute, 105

Adult polycystic kidney disease, progressive hepatic failure secondary to, 282

Adult-onset Still's disease: a concise review of clues to an important rare syndrome, 98

Allergy, adult onset restricted fish, 829

Allogeneic peripheral blood-derived progenitor cells to bone marrow for transplantation, the addition of,: results of a randomised clinical trial, 487

Amifostine in the treatment of patients with myelodysplastic syndrome, 753

Anagrelide in the treatment of essential thrombocythaemia, efficacy, safety and tolerability of, 29

Anaphylaxis following continuous 5-fluorouracil infusion chemotherapy, 743

Angio-oedema secondary to ACE inhibitor therapy, delayed diagnosis of recurrent visceral, 377

Angioplasty, impact of an aggressive stenting strategy on initial and one-year follow-up costs in patients undergoing coronary, 243

Angiostrongylus cantonensis by implantable spinal cord stimulator, successful management of pain syndrome due to, 565

Angiotensin converting enzyme (ACE) genotype on interpretation of diagnostic tests for serum ACE activity, influence of, 315

Animal models of heart failure, large, (Supplement), 395

Animal models of heart failure (Supplement), 403

Antenatal clinic patients, rubella antibody in, (Letter), 284

Antibiotic susceptibility, *Helicobacter pylori* treatment and,: results of a five-year audit, 512

Antibiotics, are antipseudomonal, really beneficial in acute respiratory exacerbations of cystic fibrosis?, 15

Antibodies to ß-glycoprotein 1 in the causation of coronary atherosclerosis as part of the antiphospholipid syndrome, evaluation of, 789

Anti-cardiolipin antibody, Q-fever associated with splenic infarction and an, 755

Antiphospholipid syndrome, complicated by protein S deficiency and acute adrenal failure, renal biopsy precipitating catastrophic, 105

Antiphospholipid syndrome, evaluation of antibodies to ß-glycoprotein 1 in the causation of coronary atherosclerosis as part of the, 789

Antipseudomonal antibodies and cystic fibrosis (Editorial), 5

Antipseudomonal antibiotics really beneficial in acute respiratory exacerbations of cystic fibrosis?, are, 15

Anti-thrombin III deficiency associated with cytomegalovirus infection, intestinal infarction secondary to, 84

Antithrombins and the importance of good control (Supplement), 444

Anti-thrombotic therapy, novel targets for,: platelet adhesion receptors (Supplement), 452

Anti-transglutaminase antibodies and coeliac disease, 239

Aromatase inhibition alters vascular reactivity and arterial compliance in men: a possible vascular role for endogenous sex hormones in males, 265

Arrhythmias using an explanted automatic defibrillator, bedside pacetermination of, 811

Arrhythmic syncope, an unusual cause of: the Brugada syndrome, 737

Arsenic trioxide treatment of relapsed acute promyelocytic leukaemia: initial Australian experience, 385
